LOGAN'S RUN

LAST DAY

It's the 23rd Century and at age 21... your life is over. Bluewater Comics proudly presents a new adaptation of William F. Nolan's masterpiece of dystopian future: **LOGAN'S RUN**.

Logan-6 has been trained to kill; born and bred from conception to be the best of the best, but his time is short and before his life ends he's got one final mission: Find and destroy Sanctuary, a fabled haven for those that chose to defy the system.

But when Logan meets and falls in love with Jessica, he begins to question the very system he swore to protect and soon they're both running for their lives.

When Last Day comes, will you lie down and die...or run!

"I really enjoyed the first issue of Logan's Run: Last Day. The action is well paced and the story develops just enough to leave me wanting more."

— FAMOUS MONSTERS OF FILMLAND

"The writing is pretty fast and immersive, making the book a speedy yet satisfying read. A lot of this is due to Salamoff... his dialogue is snappy and terse, as well as professional... Bottom line: I loved it."

—NEWSARAMA

"Writer Salamoff does a great job of forcing the reader into the action... I'm sure fans of the movie would love this book."
